## SYNOPSIS

Marie Curie's life and research changed the world and paved the way for new opportunities for all women. Her unique drive - against all odds - to understand nature and its laws lead to ground-breaking research, which changed the science of medicine - both in terms of diagnoses and treatment. She was the first female recipient of a *Nobel Prize* and the first - and to date the only - person to receive a *Nobel Prize* in two categories, first physics and later in chemistry.
