Available material: *English sample*

## SYNOPSIS

Informal and upbeat, Molly Mørch has created a non-fiction book that focuses on anatomy, menstruation, desire and sex and busts a few myths about the female genitalia along the way. Sara Koppel's illustrations are both colourful, aesthetic, and charming.

## REVIEWS

"In ten short chapters, the inner and outer anatomy of the pussy is described in a caring way, so that everyone (both those with and without) can follow and learn something, both about bodily functions, social stigma and tenacious myths" – (4 hearts in *Politiken*)

"This books tidies up once and for all in the many myths and misunderstandings that continue to exist - despite enlightenment and decreased taboos - around vulva and vagina" – Karina Lins, psychologist and couple therapist ("Conversations about Sex")
